

- Perforated & non-perforated 2mm self adhesive felt textile sheet
- Suitable for sand/cement or anhydrite screeds

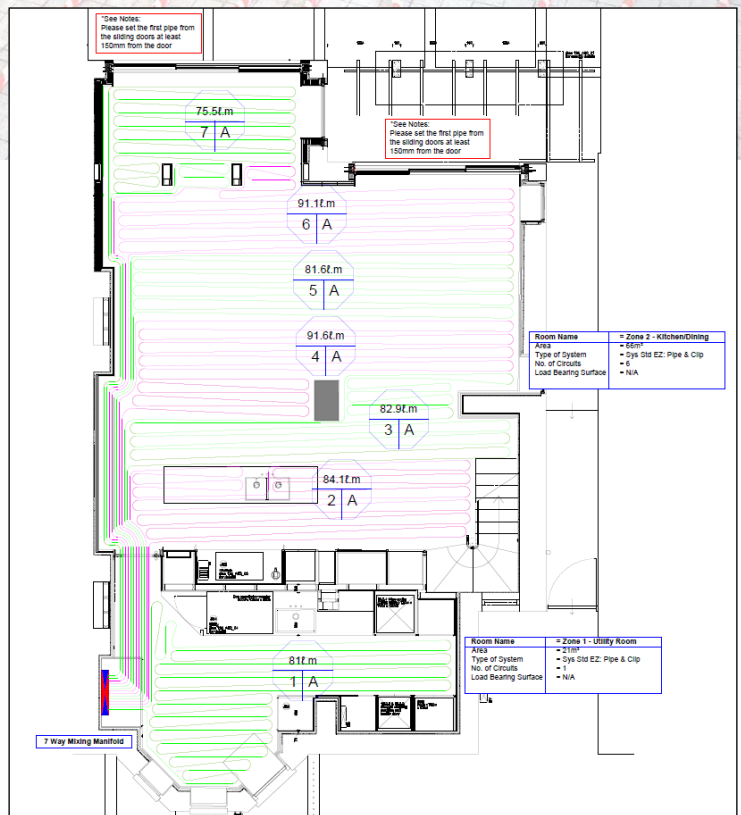

JUPITER System RED is a unique 2mm, self-adhesive felt based textile delivered with or without perforations.

The perforated RED system is suitable where a bonded screed or structural screed is required. The 16mm MLCP is delivered with robust hook and loop fastening tape which provides swift and secure fixing to the felt sheet.

Suitable for sand/cement and liquid anhydrite screeds.

The 16mm JUPITER multi-layer system pipe is manufactured in Germany to DIN 16836, carries a 10-year warranty and has a minimum design life of 200 years.
