

- Solid and timber floor constructions
- Impey Linear Dec systems

Jupiter have worked together with Impey Showers Limited to provide a flush wet room solution that is compatible with our wet underfloor heating system.

A simple solution, Impey Aqua Dec Wetroom Floor formers are only 22mm thick and can be positioned adjacent to the Screed Replacement Tile load bearing surface. The small 2mm height discrepancy between the Aqua Dec and the Screed Replacement Tile is overcome with the Impey WaterGuard wetroom tanking kit and the subsequent tile adhesive.

Aqua Dec Linear 2 Wetroom Floor Former 2 way fall consistent gradient - 22mm thick

Available in 3 sizes.

Supplied complete with linear wetroom drain

Size: 900mm x 900mm (600mm drain)

Max Shower Area: 900mm x 900mm

Code: AD2L9090

Size: 1000mm x 1000mm (600mm drain)

Max Shower Area: 1000mm x 1000mm

Code: AD2L1010

Size: 1200mm x 900mm (600mm drain)

Max Shower Area: 1200mm x 900mm

Code: AD2L1290

Aqua Dec Linear 3 Wetroom Floor Former 3 way uniformed gradient – 22mm thick

Available in 2 sizes.

Supplied complete with linear wetroom drain

Size: 1500mm x 800mm (800mm drain)

Max Shower Area: 1500mm x 800mm

Code: AD3L1580

Size: 1800mm x 800mm (800mm drain)

Max Shower Area: 1800mm x 800mm

Code: AD3L1880

Aqua Dec Linear 4 Wetroom Floor Former 4 way fall consistent gradient - 22mm thick

Available in 3 sizes.

Supplied complete with linear wetroom drain

Size: 1000mm x 1000mm (600mm drain)

Max Shower Area: 1000mm x 1000mm

Code: AD4L1010

Size: 1200mm x 900mm (800mm drain)

Max Shower Area: 1200mm x 900mm

Code: AD4L1290

Size: 1200mm x 1200mm (800mm drain)

Max Shower Area: 1200mm x 1200mm

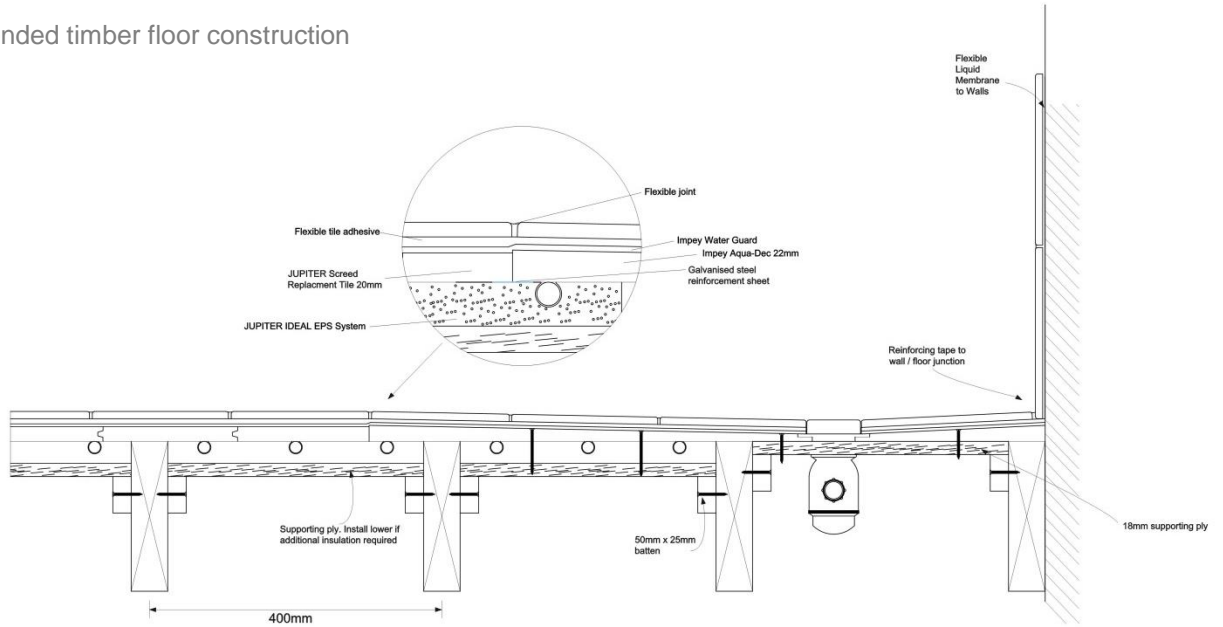

Code: AD4L1212
